Scheme of Assessment for Grade IX in the session 2021-22

13.08.2021

Dear Parent,
Greetings!

As per the new CBSE guidelines issued in July 2021, Grade IX will follow the special scheme of assessment that will focus on assessing stipulated learning outcomes. The syllabus for the academic session has been reduced and divided into two terms and there will be a Term end examination. Each term has approximately 50% of the annual syllabus and the detailed term wise syllabus has been uploaded on the portal under the tab-syllabus and time table, for your reference.

Besides the Term end examinations, internal assessment (throughout the year irrespective of the term end exams) will be in the form of periodic tests (pen-paper tests), Multiple Assessments (MA), Subject Enrichment activities (SE), Portfolio, practicals and Speaking listening activities.

The exams will also include Multiple Choice Questions(MCQ) including case-based MCQ, assertion-reasoning type MCQ. In order to equip our students with MCQ type of questioning, chapter wise MCQ worksheets and practice will be given in the online classes in all the subjects so that the students gain concept clarity and excel in the exam.

Warm Regards,
Manjula Pothepli
Head of School
