

A school that promotes experiential growth

Learning via engaging is the key to a child's growth, and it is with this philosophy that **Made Easy** — a renowned name synonymous with training students for competitive examinations across the country for over 17 years — has forayed into school education with **Made Easy School**, at Bandhwari near Sector 59, Gurgaon.

Trough its innovative, enquiry-based learning, Made Easy School addresses

the gap between perceived learning and actual learning needs of children. With life-like, experiential components forming the core approach, the school makes education a dynamic, effective, and optimum learning experience. This implies going beyond mere academic and intellectual development and promoting overall growth (cerebral, emotional, physical, social, and spiritual) instead.

The pedagogy and teaching-

learning environment take into account that every child is unique. While preparing children in academic knowledge, the school also promotes sustainable education along with skill development and equips them with competencies for success. If you are looking for a unique learning experience for your child, then Made Easy School is the right option.

Spread across a sprawling campus of 25 acres, the school

accepts admissions to nursery going up till grade 6th, with some exclusive benefits like 100% waiver in admission fee, recurring 50% waiver in annual charges every year only for the foundation batch for the year 2018-19.

Visit www.madeeasyschool.in or contact the Admissions Department at 8800882440/5424 for more details and a school tour or email at info@madeeasyschool.in
