MADE EASY SCHOOL

Our logo is inspired by a famous quotation of W. B. Yeats: "Education is not the filling of a pail, but the lighting of a fire." The book is the base whose pages are turning into flames. The flame signifies rigor, relevance, creativity and personalisation of learning

-  Red signifies vibrancy, passion, and courage to imagine and be creative.
-  Orange brings life, light, warmth, sincerity, and exploration of new horizons.
-  Blue stands for freedom of the children to exercise their curiosity within safe boundaries.
-  Green symbolizes growth and sustainability.

And our Motto is an extract from a shloka in Vishnu Purana and summarises our raison d'être

tatkarma yan na bandhāya sā vidyā yā vimuktaye |
āyāsāyāparaṃ karma vidyānyā śilpanaipuṇam ||

Only that kind of knowledge and skill are worth,
which lead to liberation from the worldly cycles of birth and death.

Education should enable individuals to think for themselves. They should not be mere followers, but society should be able to expect leadership from them. Because knowledge is not merely assimilating information or skills. True knowledge is that which liberates!

“Education is that which makes you future ready with character, service, knowledge and skills.”

G ENESIS

MADE EASY SCHOOL seeks to enshrine a social commitment by MADE EASY Group - a success partner of engineering graduates, to enable, empower and enrich the growth of future generations. The school aspires to build an institution that shall meet the requirements of a sensitive and responsible community with inbuilt dynamism to adapt the best practices and pedagogy in an ever evolving world.

V ISION

Promoting a learning-centered education that builds and helps a lifelong learning community realize its potential while fully appreciating the national, global and multicultural perspectives and the inherent universal values.

M ISSION

- Equipping children with knowledge, innovation and life skills.
- Fostering a culture where teachers are mentors, collaborators & active participants in the development of children.
- Developing leadership in children by helping them to learn, unlearn and adapt as an ongoing process.
- Inculcating relentless pursuit of excellence as a joyful way of life for every individual in the school.
- Nurturing social responsibility in children while reinforcing their individuality.
- STEM and STEAM shall form an integral part of our academic rigor.
- Ensuring sustainability as the key motivator in all aspects of life and living.

C ORE BELIEFS

- Academic Excellence • Leadership in Action
- Universal Values • Sustainable Practices

WELCOME TO MADE EASY SCHOOL

Education for the future is most accurately represented as a journey — a journey of exploration. This journey is guided by compasses, rather than maps; and the ‘explorers’ in this journey are those who possess strong analytical skills, a knack for problem solving, adequate creativity, and most necessarily, humaneness in their thoughts and action. It is with this motivation that MADE EASY Group has laid the ground for delivering innovative education with MADE EASY SCHOOL a progressive K-12 school in Bandhwari, Gurugram (NCR).

Spread across 25 acres of sprawling campus and away from the hustle-bustle and pollution of the city, MADE EASY SCHOOL in Bandhwari hosts naturally lit, spacious, smart classrooms, an indoor sports complex for year-round sports activities, and many such thoughtfully crafted amenities to enable your child embark on his/her journey to a bright future.

MADE EASY PRESCHOOL is already running successfully in its 2.5 acre campus in Chhatarpur, Delhi, and is making a difference in early childhood education. MADE EASY SCHOOL is a unique initiative of the MADE EASY Group — a renowned name synonymous with success in competitive examination of ESE, GATE, PSUs & IAS. It has been training students in various centres spread across the country for over 18 years now and it continues to help children keep abreast with the ever-changing world.

MADE EASY PRESCHOOL
Chhatarpur, New Delhi

OUR ETHOS

MADE EASY SCHOOL is a progressive school with seamless class routines that are designed to keep the individual learning goals of your child in mind. Our age-appropriate curriculum focuses on all-round development of the child encompassing largely the following areas:

Cerebral development: Critical thinking, in-depth understanding, inquiry, creativity, recollection, and application.

Social development: Positive personal relationships, effective communication, trust and belief in the goodness of others, desire to help, and a sense of identity.

Emotional development: Self-belief and confidence, self-control, self-motivation, creative interests, and passion for lifelong learning.

Physical development: Healthy practices (diet and exercise), personal care and hygiene, fine and gross motor skill development.

Spiritual development: Feeling at one with nature, the universe, and the self. Children learn to be one with nature as they share their environment with birds and butterflies.

Overall, an experience which is conducive to growth, both inner and outer, nurturing all aspects of the personality – physical, intellectual, linguistic, emotional, social, psychological and spiritual.

“THE WHOLE PURPOSE OF EDUCATION IS TO TURN MIRRORS INTO WINDOWS”

—SYDNEY J. HARRIS (Renowned American Journalist)

UNLOCKING POTENTIALS

At MADE EASY SCHOOL, we help children realize their full potential. With expansive and empowering learning opportunities, we try to unlock multiple avenues for children to explore themselves, and thereby achieve excellence. Through the holistic integration of developmentally appropriate and academically rigorous approach to education, we make sure that our children are always on the path to progress.

THE VISIONARY MENTOR

The renowned educationist Mrs. Lata Vaidyanathan is the mentor of MADE EASY SCHOOL and is also a prominent member in the board of directors of the school. She is committed to promotion of child-centred education. During her illustrious career of more than three-and-a-half decades, she was the Principal of Bhartiya Vidya Bhawan's school at Chandigarh, the Founder-Principal of Eicher School at Parwanoo and the Principal of Modern School Barakhamba Road, New Delhi, for the last fourteen years.

She spearheaded burden-free education, and is a renowned practitioner of Multiple Intelligence approach to learning and Total Quality Management in education. She is well respected as an educationist both in India and abroad.

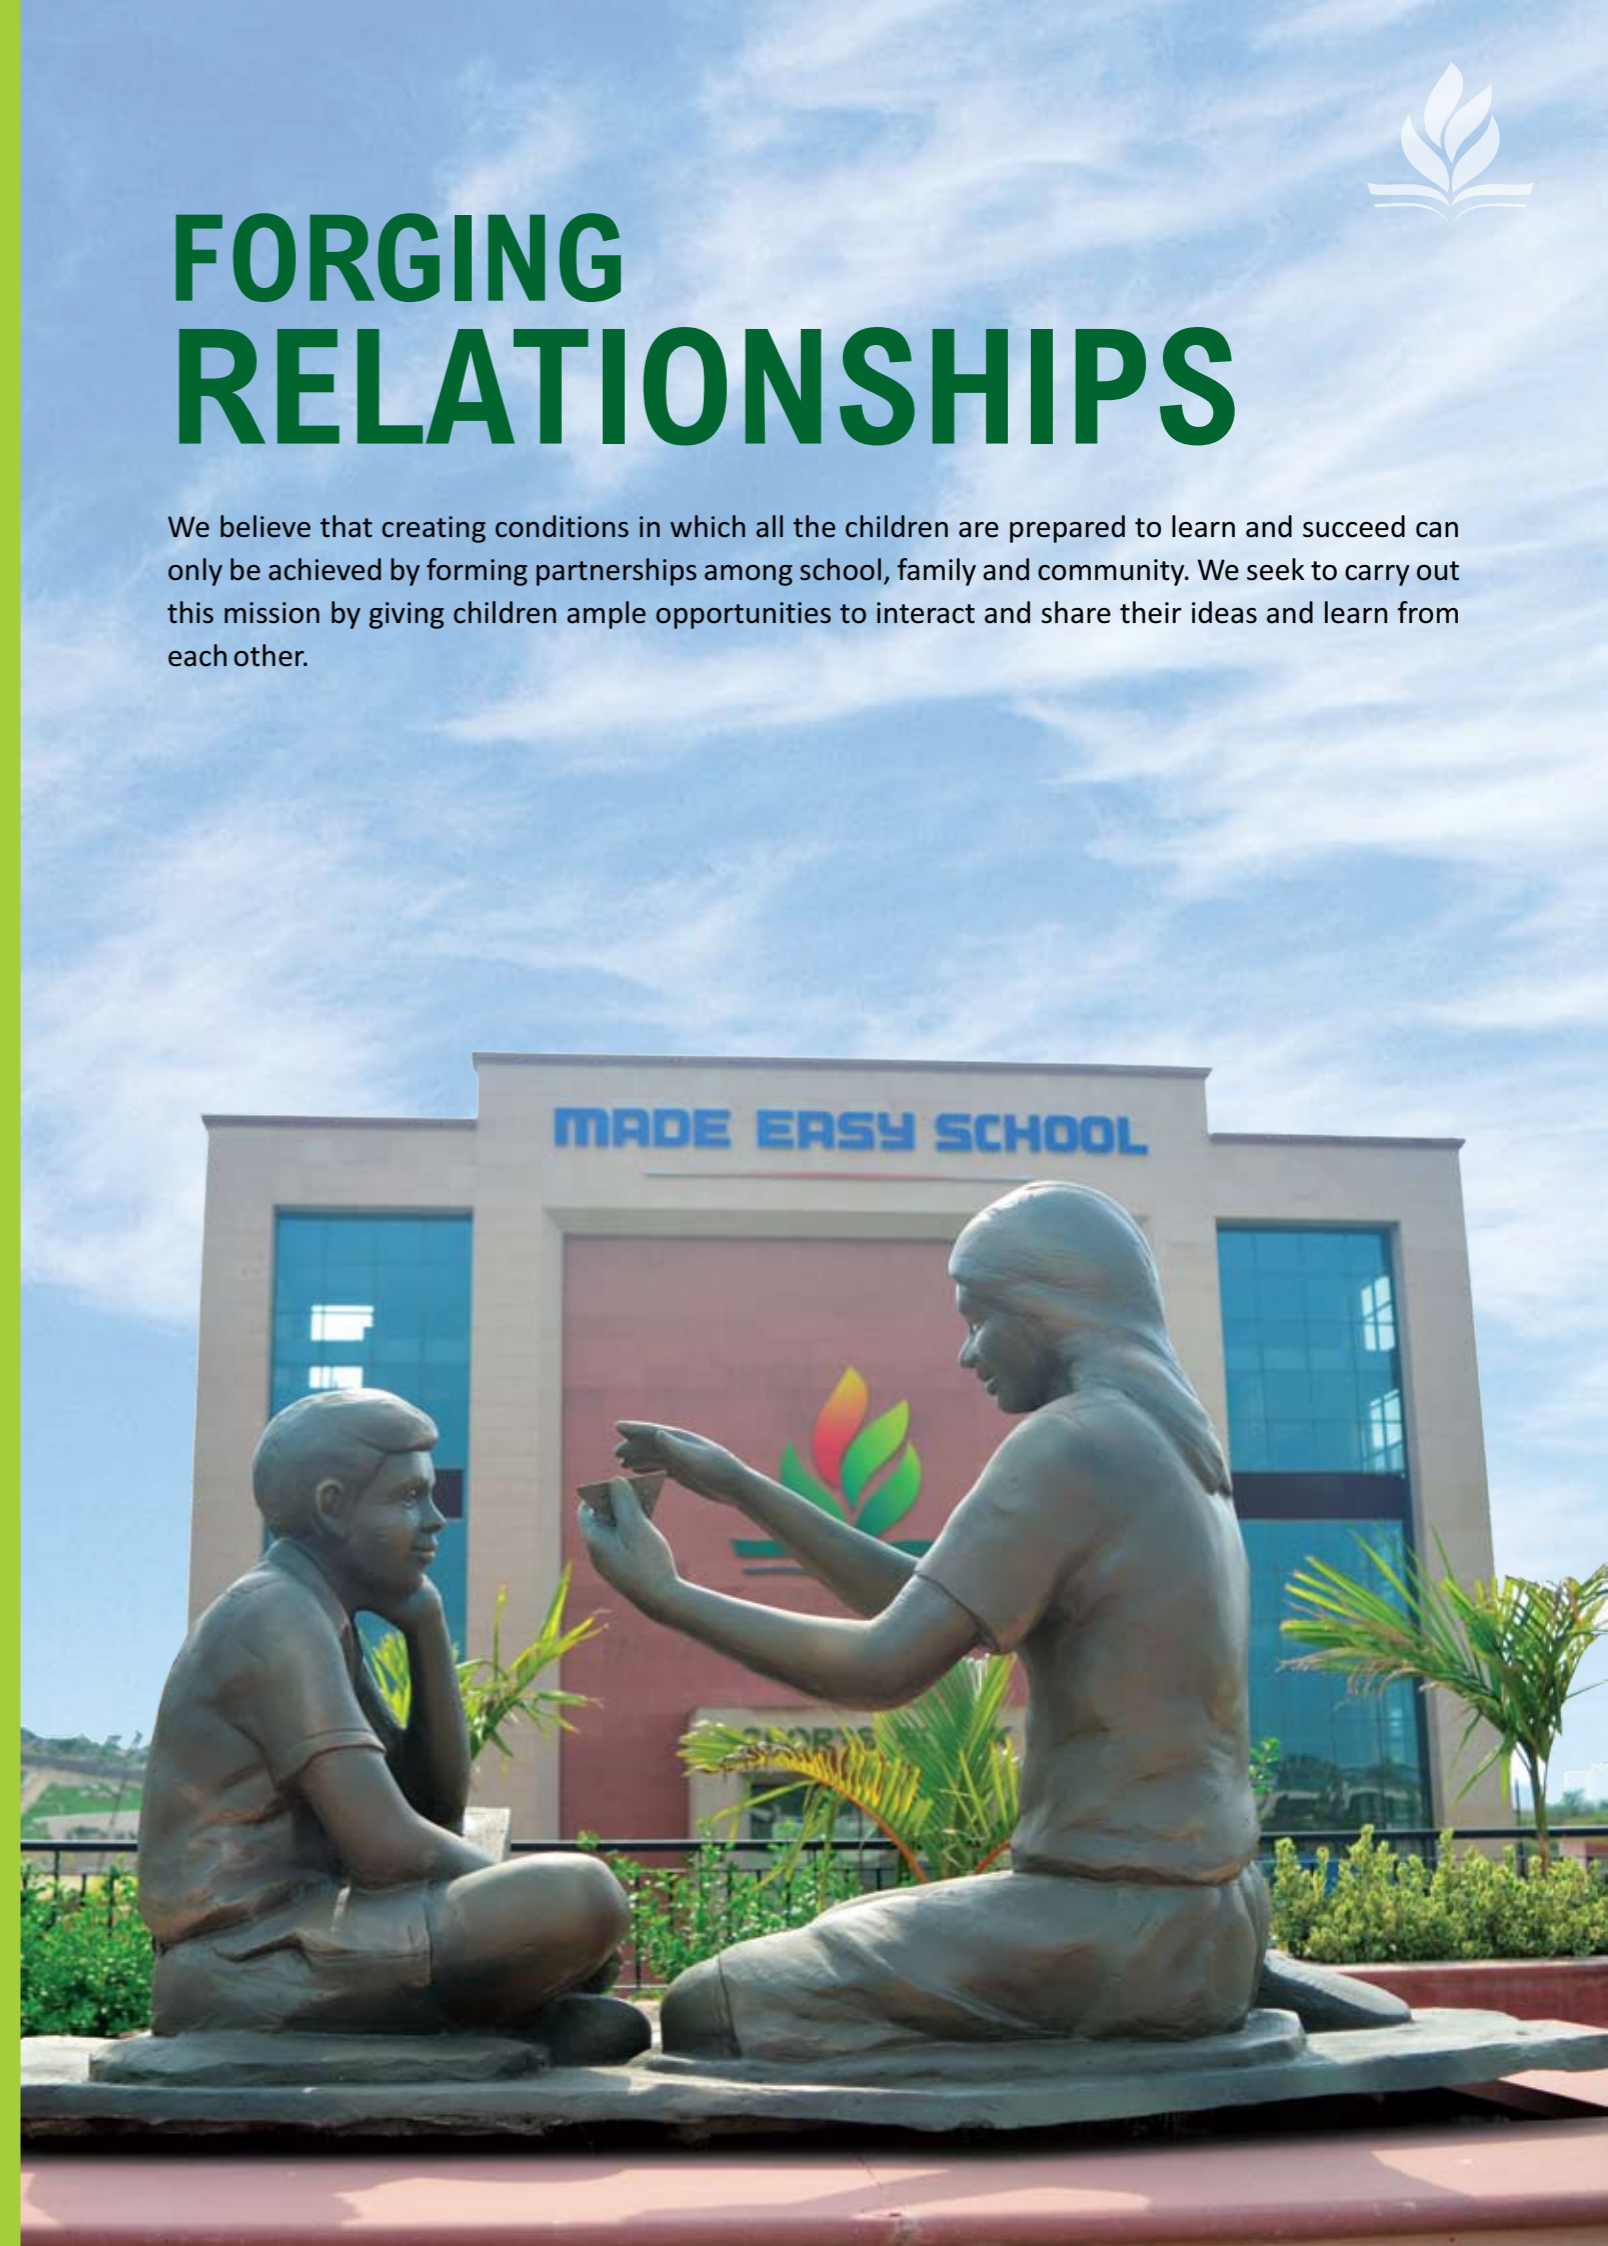

She undertook many outreach programmes to help the community and sensitize students and teachers towards addressing issues concerning community development. Her contribution towards inclusive education of differently-abled children is commendable.

She has been honored with the National Award to Teachers in the year 2003 by the President of India. She is also the recipient of numerous other awards including the Dr. Radhakrishnan Award, Bharat Shiromani Award, Madhav Gourav Ratna Achievement Award, International Lifetime Achievement Award 2009, Global Warming Reduction Award 2009, Educationist of the Year Award 2013 and Lifetime Achievement Award by the Patanjali Trust 2014.

She is also on the board of National Bal Bhavan and serves on the Executive Committee of many schools. She is an independent Director on the board of Mind Champions a subsidiary of NIIT and is also an advisor to FICCI ARISE.

FORGING RELATIONSHIPS

We believe that creating conditions in which all the children are prepared to learn and succeed can only be achieved by forming partnerships among school, family and community. We seek to carry out this mission by giving children ample opportunities to interact and share their ideas and learn from each other.

OUR FACULTY

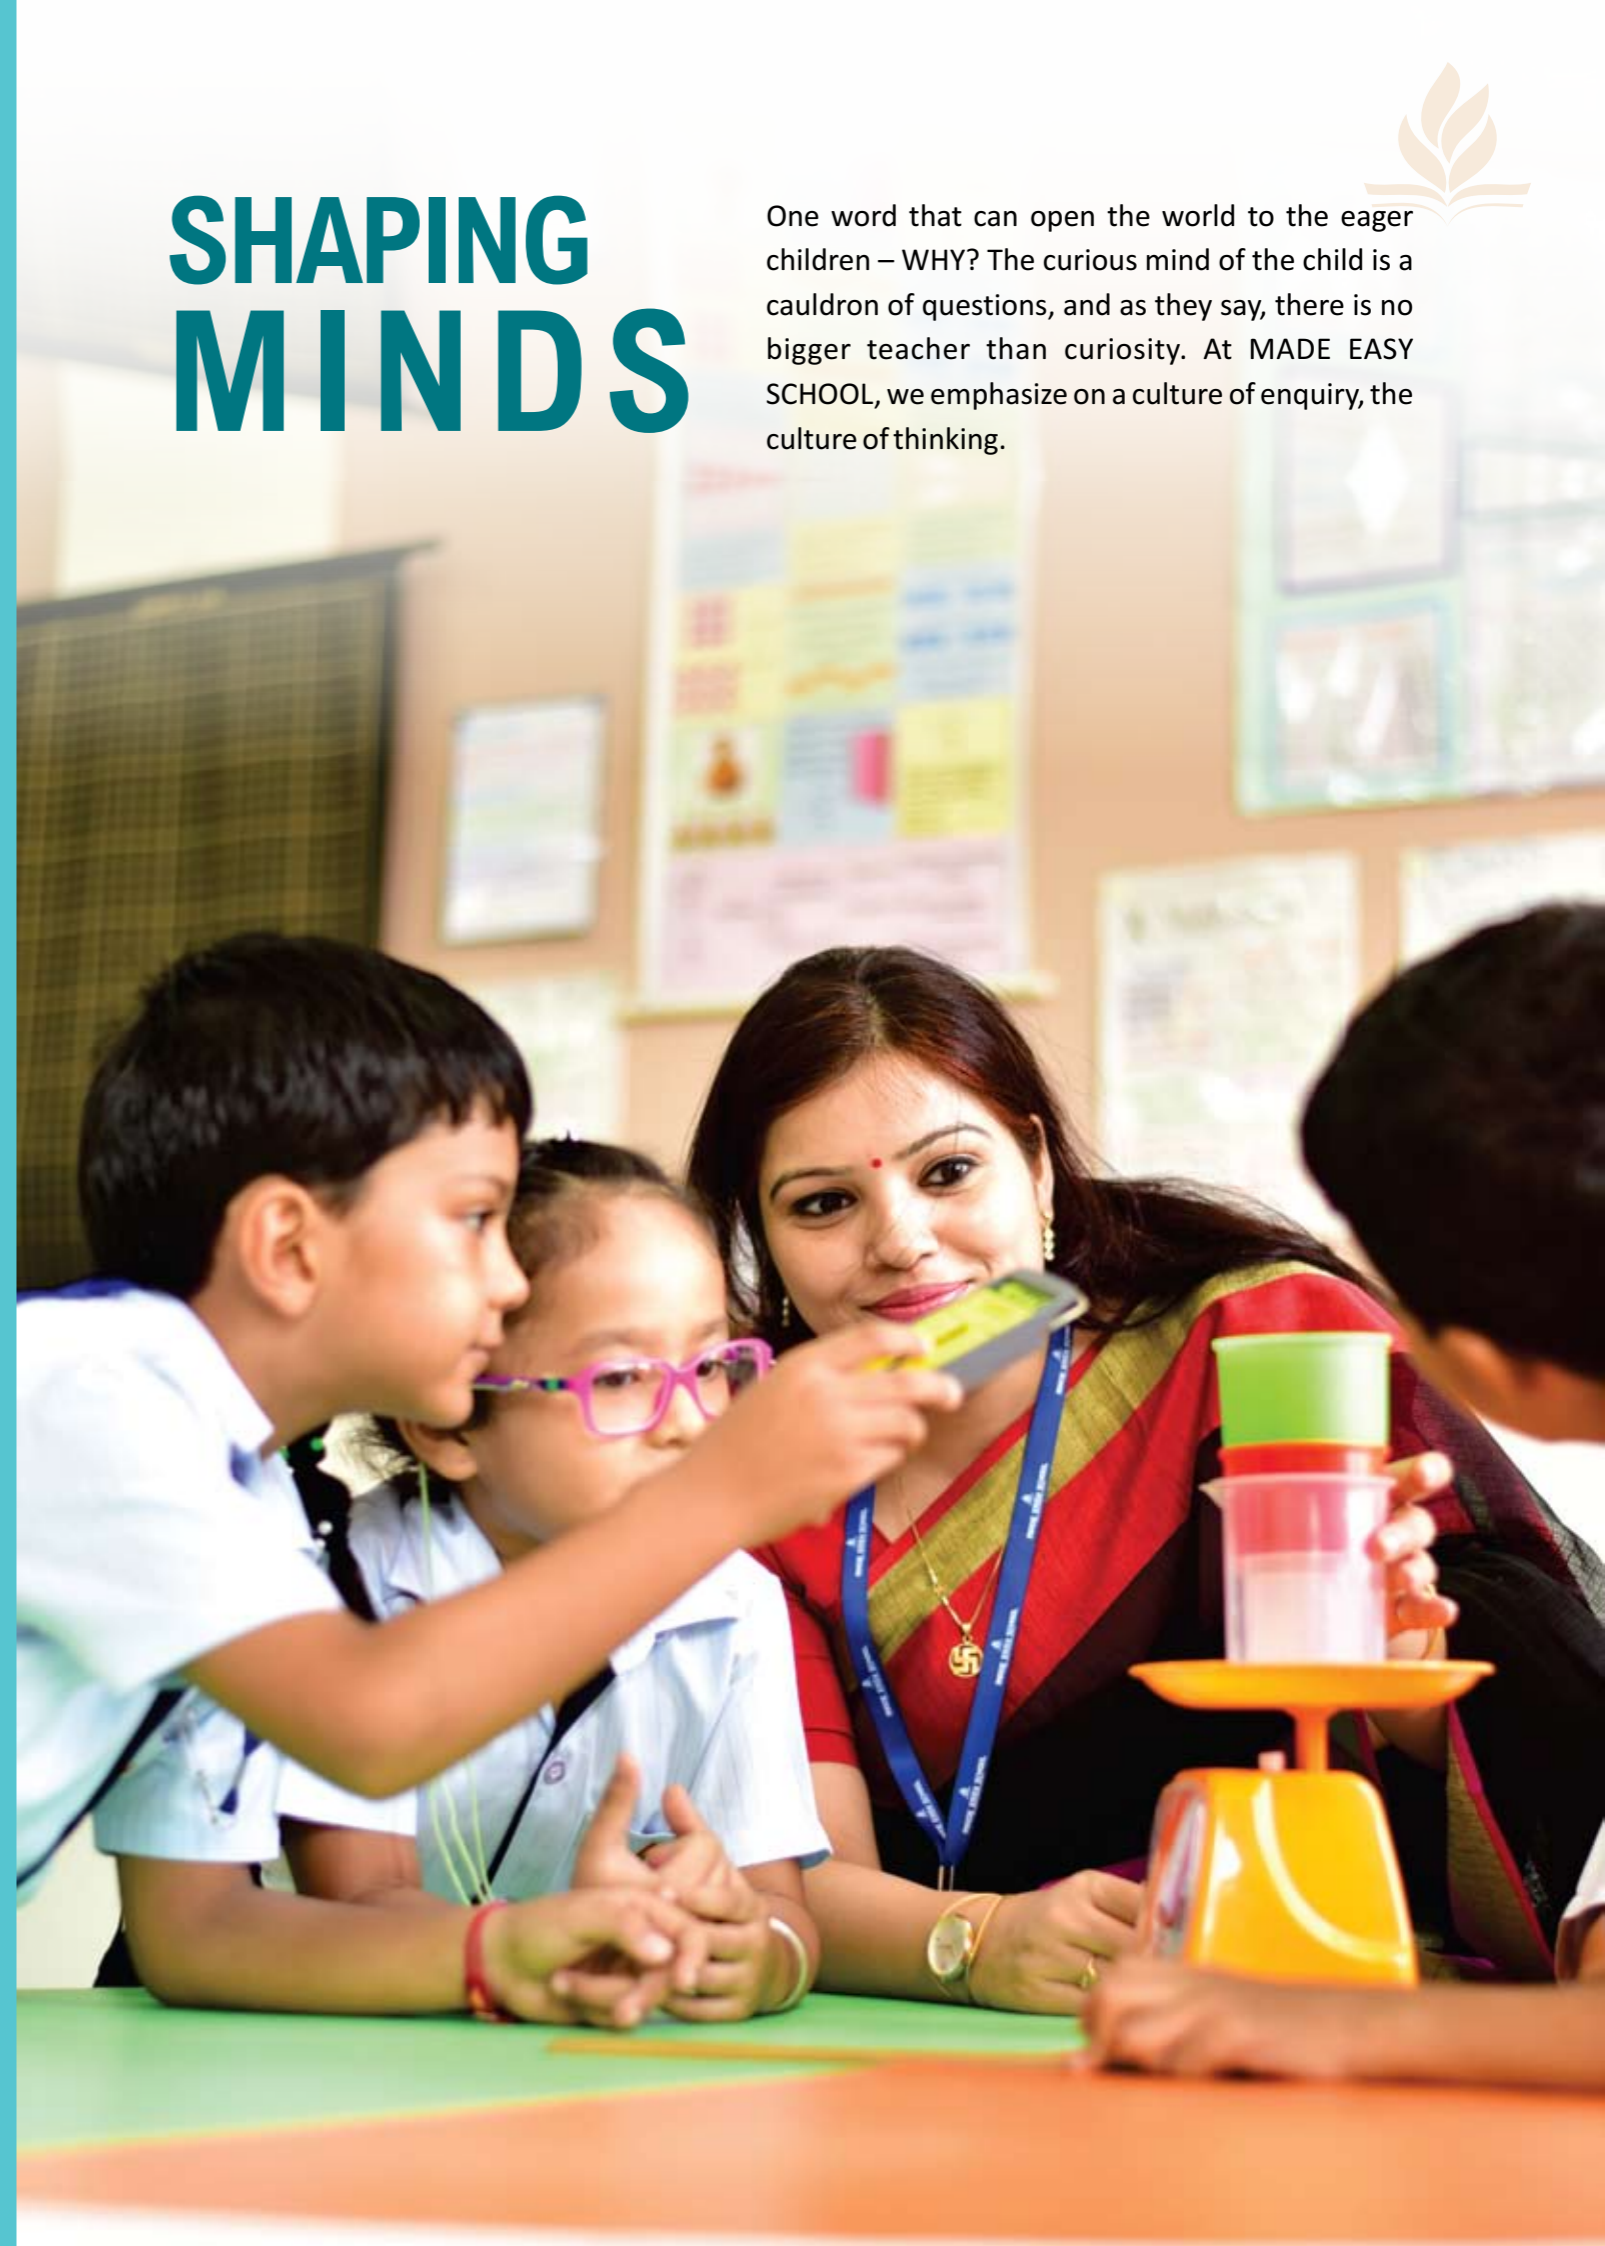

The faculty at MADE EASY SCHOOL is an eclectic team of educators who come to the classroom with extensive, real-world experience. Our teachers guide the learning of each child from dependence to interdependence with deep knowledge and understanding of their subjects and the curricula offered. They foster integral connections with curriculum and develop programmes based on student interests and inquiries. The backbone of teacher's support system is our on-going professional development programme.

Our optimal student-teacher ratio allows closer interactions between students and faculty, and simultaneously creates a lively intellectual environment.

SHAPING MINDS

One word that can open the world to the eager children – WHY? The curious mind of the child is a cauldron of questions, and as they say, there is no bigger teacher than curiosity. At MADE EASY SCHOOL, we emphasize on a culture of enquiry, the culture of thinking.

FROM INSTRUCTING TO ENGAGING

Think of some of your best teachers and you will realize that they were good because they never taught; they talked and facilitated. They engineered learning experiences that maneuvered students into the driving seats and then quietly got out of the way.

Our teaching strategy is one that makes learning an organic process where teachers become co-learners and partners in the process of value creation and individuality. Our teachers don't instruct, they engage.

We also believe in developing our teachers and encouraging them to enhance their skills. We organize in-house training programmes to share best practices and also workshops with experts – both within India and overseas.

EXPANDING WORLDVIEWS

At MADE EASY SCHOOL, we encourage love for the written word. We believe a book is a passport to any place around the world. With extensive reading resources, we inspire students to become engaged readers and contribute to creating a reading culture.

FROM REPEATING TO REINVENTING

Refusing to turn out ivory tower scholars or unfeeling automatons, our Experiential Leadership Curriculum strives to help children proactively build a sustainable future for them. The unique curriculum focuses on building life skills, entrepreneurial skills and thinking skills through experiential learning and nurturing a citizen ready for the future. Standing firm on the pillars of holistic development, it pairs philosophy with pedagogy, and combines the time-tested global learning practices with experiential hands-on learning.

FROM KNOWING TO DISCOVERING

A school is a microcosm of the world that our children are going to step into a few years from now. MADE EASY SCHOOL provides an inclusive environment that teach children to be sensitive, empathetic and accepting of the differences – be it language, culture or ability.

At MADE EASY SCHOOL, every space is a learning space. Students learn from the spaces on the campus – re-discover the principles of science and mathematics from the natural environment, as they learn to think like scientists and mathematicians. Over half of the campus is dedicated to open spaces and play-fields, and the classrooms have been specially designed keeping in mind optimum availability of natural light and cross-ventilation. An extensive area surrounds the school building, where children engage in free play in a safe and secure environment under the constant supervision of a team of qualified teachers.

FROM INDUCTING TO INSPIRING

MADE EASY SCHOOL gives equal importance to all areas of learning, including visual arts, performing arts, and physical education. Equipped with international standard running track of 400 metres, state-of-the-art cricket pitch, basketball court, tennis court and soccer ground along with adventure activities like rock climbing and Burma Bridge, our sports curriculum aims at character building through instilling confidence.

PERFORMING ARTS: At MADE EASY SCHOOL, a curriculum detailed to the finest points is in place for performing arts. By creatively exploring and experimenting with instruments, dance and drama forms, and techniques (appropriate for the respective stage of development) — our students learn to respond to the beauty in form, movement, and sound; and develop an aesthetic sensibility. Moreover, by learning about Performing Arts practices from different local and national regions and the world, they begin to respect and accept cultural differences.

PHYSICAL EDUCATION: Physical Education is an integral part of life at MADE EASY SCHOOL for it not only plays a significant role in moulding the character but also in instilling positive values among students. The objective of our Physical Education programme is to help our students inculcate healthy life practices and habits; encourage them to develop an interest (and expertise) in at least one sport (or physical activity) for lifelong practice; and through team spirit, sportsmanship, and fair play, build positive relationships with others.

INSTILLING CONFIDENCE

We encourage children to take part in sports activities – for enjoyment, relaxation and exercise, and also as a positive aid to their educational development and the formation of their self-worth. The Physical Education programme in our schools gives students a chance to stretch their abilities and gives them a feeling of self-fulfilment and achievement.

STATE-OF-THE-ART LEARNING SPACES

Library

Keeping in mind that a library is a storehouse of knowledge, we have provided students with a space that inspires learning and improves communication and interactions. Availability of computer systems connected to the Internet opens a world of knowledge to them; stoking their imagination and widening their horizons.

Science Labs

We make sure that in our Physics, Chemistry and Biology Labs, our students are provided with all the facilities required for gaining practical experience and attaining cognitive goals. A hub of modern facilities and equipment, our Science Labs bring learning to life; as students get to explore, experiment, and draw their own conclusions.

Mathematics Lab

Our fully equipped Mathematics Lab encourages our students to learn through practice. Here, they get to perform various mathematical experiments; and in addition to solving regular assignments, they also play mathematical games. The Laboratory introduces our students to various methodologies, and bridges the gap between the real and the abstract world. Their skills of reasoning, logical thinking, and connecting ideas are honed with every session spent at the Lab.

Computer Lab

Information technology has become integral to every walk of life. At our state-of-the-art Computer Lab, our students get an early introduction to computer education. We have qualified teachers for assisting students to search for information, create multimedia presentations, complete project work, and creatively present the content they have gathered after comprehensive search from multiple sources.

Life Skill and Innovation Lab

Every child is born Creative Genius.

Innovation Lab (Creativity and Design Lab) is a learning space designed to nourish the seeds of creativity in children. The lab serves curiosity of the students where they can engage in creative problem solving using Creative and Design Thinking. This lab is designed in a way where students can work in teams, collaborate on the projects. The lab is equipped with cutting-edge software and hardware technology tools to develop 21st Century skills in students like Creative Thinking, Critical Thinking, Collaboration and Communication and make them future ready.

Indoor Sports Complex

We have all major sports programmes available indoors, so that our students can keep playing their favourite sport all year round! Our infrastructure and facilities include excellent illumination and full weather protection, an indoor sports complex (for basketball, gymnastics, badminton, table tennis, swimming, squash and skating), multi-use training facilities and professionally trained sports faculty members.

Outdoor Play Area

We believe that play enhances every aspect of a child's development and learning. In fact, play is a child's window to the external world; and forms the foundation of their social, intellectual, physical, and emotional skills that ensure success in school, as well as in life. The idea of including play, in required ratio with academics, fulfills our prime objective of imbuing in students the traits of team building spirit, social skills, problem solving, leadership, discipline, creativity and thinking skills. Towards this end, we have provided them with playfields and facilities for basketball, cricket, lawn tennis, taekwondo, etc. Additionally, we foster their level of confidence with words of appreciation and encouragement, coupled with prizes and awards at various events organized at the school.

Amphitheatre

We have an open-air amphitheatre, which, with its artistic beauty, makes a splendid addition to the grandeur of the school. The amphitheatre is used for all outdoor stage activities, including competitions, House and Club meets, etc. Our amphitheatre is also a favourite meeting place for all the budding actors and artists of our school, where they can hone their skills, and present their ideas with confidence to their audience.

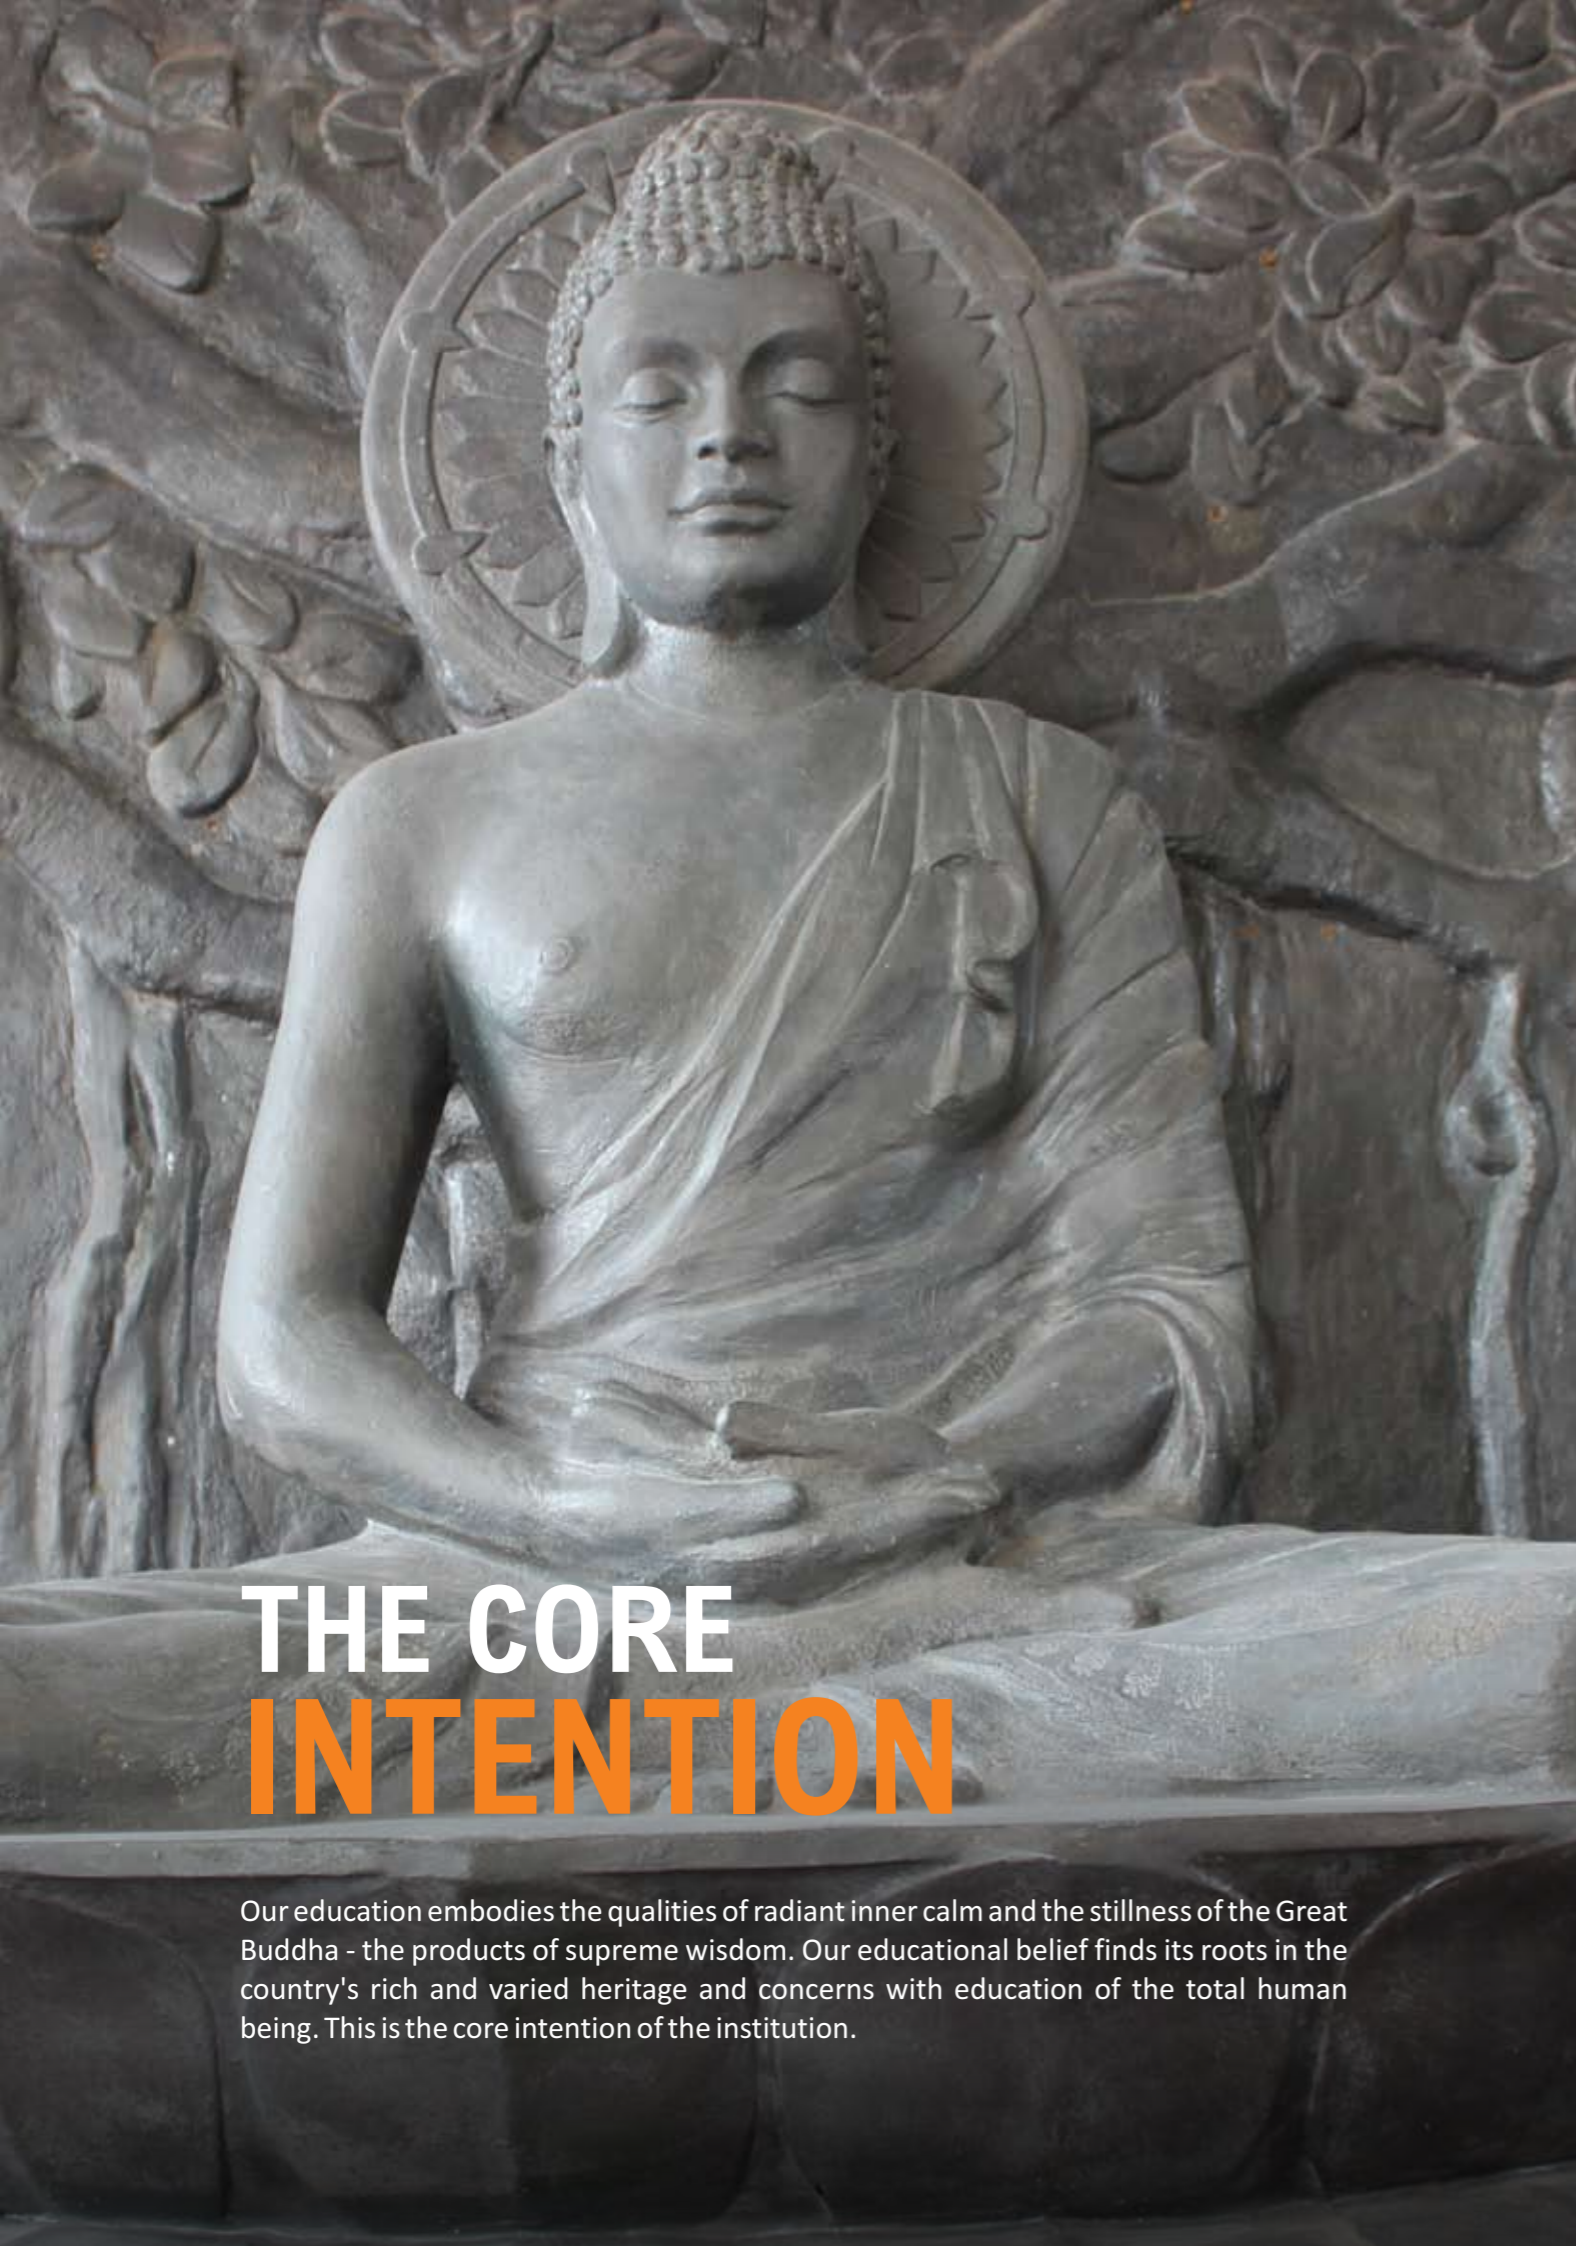

Activity Rooms

The Activity Rooms are magical spaces that spur every student into action—be it through dance, music, or yoga. The very idea of introducing Activity Rooms is to nurture the inner potential of every student, give wings to their creativity, and hone their latent skills. Thus, these rooms play a crucial role in strengthening the roots of talent in every student.

Medical Room

The school accommodates a well-equipped and well-furnished Medical Room, which is accessible during school hours. Our nursing attendants ensure that any medical emergency is handled efficiently. We conduct regular awareness programmes on various aspects of health education (diseases), first-aid, healthy habits, diet management, and stress management; along with sessions on yoga and meditation. Moreover, routine medical checkups are conducted every year to keep a check on various health-related issues.

THE CORE INTENTION

Our education embodies the qualities of radiant inner calm and the stillness of the Great Buddha - the products of supreme wisdom. Our educational belief finds its roots in the country's rich and varied heritage and concerns with education of the total human being. This is the core intention of the institution.

ADMISSIONS

We know that a phone call or visit to our website cannot capture the feeling of walking onto our campus and seeing it for yourself. We would be happy to meet you at the school to discuss the admission process and show you around our campus.

APPLICATION PROCESS

MADE EASY SCHOOL aims to make the admission process a pleasant and straightforward experience for all. Please note that admissions, meetings and school tours are available by appointment. To enquire about the admission process, please contact the Admissions Department at

- **Bandhwari Campus:** Bandhwari, Near Sector 58 & 59, Gurugram. Phone: 8800882440 / 8800331343 or email : info@madeeasyschool.in

Registration Process:

Online Registration: Visit our website www.madeeasyschool.in for online registration.

Offline Registration: Collect the Admission Form from the school reception between 9:00 am to 4:00 pm.
